SKILLS

Management

Android Development

C/C++

Java

Python

Hadoop

R Programming

MySQL

PHP

ABOUT ME

I am passionate, sincere, punctual and dedicated about my work. Apart from the technical skill sets, my other **strengths** can be counted to be self-motivated, responsible and business minded. My **weakness** is that I am very less talkative and thus never got interested to be part of any gossips.

Objective

Looking for an opportunity to utilise my existing skills as well as embrace knowledge on trending requisites to generate some value. Just an initial support is what expected and rest can be assured that I will give my best in any situation. My future goal is to become a lead entrepreneur alongside of my coding geekiness.

Academic Qualifications

NIIT University (2015-2019)

Bachelor of Technology in Computer Science (Neemrana, Rajasthan)

9.68/10 CGPA
Till 5th Semester

Jayshree Periwal High School

12th Class, CBSE, 2015 (Jaipur, Rajasthan)

90/100 %

Ryan International School

10th Class, CBSE, 2013 (Jaipur, Rajasthan)

10/10 CGPA

Work Experience

Digital Marketing at Nearbuy (2016)

I did Work-From-Home internship at Nearbuy India Private Limited for 2 months duration in summer. The field of work was Digital Marketing, in which I was expected to market their products and brand through social media platforms like Facebook, Instagram, Twitter, etc. I completed the work with full dedication and learnt how to deal with real time deadlines and work under pressure. Studying the market of Nearbuy and focussing on their end customers in most intuitive way was the most difficult phase, which was duly completed with my senior's support.

Volunteer Experience

Core Team Head – ingeNUity '18

Working in continuity for 2 months was what required for proper execution of our college annual fest. I was the part of 6 members in core team who were responsible to look after each and every responsibility of organising the fest. My main contribution was handling all Finances as well as formal interactions through mail regarding sponsorships, announcements, etc.

Projects

PharmaConnect

Smart India Hackathon 2018 Grand Finale product. An Android App that gives a common platform to integrate all the pharmaceutical groups together under one umbrella. For a non-expert, this app also provides many other features like DrugsWiki, PharmaLocator, etc. For industry related people, it has features like Surveys, Policies, News Feed, etc.

Consonant

An Android App that enables a set of people to build a knowledge repository on a specific topic or point of interest. The app has dashboard divided on the basis of interest groups, making it clean and simple to manage. People can share their state of interest, like or comment on other's posts, save their preferences to view posts based on that, etc.

Mieten

Prototype of an Android App for placement cell as well as students of our University. It has separate portals for Admin and students. Admin features includes listing job offers, notifying a particular student to get some data, collect internship requests, etc. Student features includes FAQ center, apply for jobs, solve sample question papers, etc.

Hand-gesture based home automation project

DIY Project: An application for hand gesture recognition, of a limited set of hand gestures, for operating low voltage appliances used as a replacement for the actual home appliances. It consisted of both software and hardware parts implementing a model of Home Automation.
